

Abstract Submitted  
for the APR13 Meeting of  
The American Physical Society

**UED generalized with bulk masses and brane localized terms** KY-  
OUNGCHUL KONG, University of Kansas, THOMAS FLACKE, Korea Advanced  
Institute of Science and Technology, SEONG CHAN PARK, Sungkyunkwan Univer-  
sity — We present a generalized universal extra dimensional model with KK-parity  
in the presence of the fermion-bulk masses and boundary-localized kinetic terms,  
which are generally allowed by symmetries of five dimensional gauge theory.
