

Abstract Submitted
for the APR14 Meeting of
The American Physical Society

Panel Discussion STEVEN LAMBERT, American Physical Society, MEGHAN ANZELC, CNA Insurance, BRAD CONRAD, Appalachian State University, KATHERINE HARKAY, Argonne National Laboratory, RAFAEL LANG, Purdue University — Please join us for an informative discussion about the many career paths available to those with a physics degree. Our panelists come from a wide variety of backgrounds and represent a diversity of employment sectors; through the discussion, we will explore academic and non-academic career paths, tips on building your network, searching for and applying to jobs, and how to navigate the negotiation process. Panelists will include: Steven Lambert, Industrial Physics Fellow, American Physical Society; Meghan Anzelc, Director of Predictive Modeling at CNA Insurance; Kathy Harkay, Physicist at Argonne National Laboratory; Brad Conrad, Asst. Professor of Physics and Astronomy, Appalachian State University; and Rafael Lang, Purdue University.
