The Quantum Cause of Entanglement SHANTILAL GORADIA, No Company Provided — The hidden concept of theorizing entanglement in our paper: NEWTONIAN GRAVITY IN NATURAL UNITS, Journal of Physical Science and Application 2 (7) (2012) 265-8 made us submit (sketchy) abstracts for the 3/2007 APS Meeting for Session D33 13 titled: THE MYSTERY OF THE GENETIC TAPE, and others stepping into biology more with our later publication of DECODING THE INFORMATION OF LIFE, Journal of Physical Science and Application 5 (3) (2015) 191-195. The elegant Eulers Equation for the sum of the inverse squares showed us the perceived entanglement mathematically, making us publish: DARK MATTER FROM OUR PROBABILISTIC GRAVITY, Journal of Physical Science and Application 5 (5) (2015) 373-6. It may fulfill the need of quantum gravity in (Penrose, Hameroff 1996). Ancient faiths are merely supportive conjectures. We hinted of a potential link of our theory to one cause (structural changes in the brain) of Alzheimers, in our 2011 book, QUANTUM CONSCIOUSNESS THE ROAD TO REALITY. We refer to Bio-Life per Smolin in our 2017 paper: THE EMPERORS MIND IN A NUT SHELL, Journal of Life Sciences 11 (2017) 249-253 (doi:10.17265/1934-7391/2017.05.005), also addressing multiverses and the enigma of the approximate nature of the Newtonian Inverse Square, a TOE must do.
