Abstract for an Invited Paper
for the APR18 Meeting of
the American Physical Society

Behind the Scenes at Chapel Hill

DEAN RICKLES, University of Sydney

The 1957 Conference on the Role of Gravitation in Physics (aka The Chapel Hill conference) marked a turning point in the fortunes of general relativity. This talk will examine a range of interesting details in the the setting up of the conference: motivations, participant selection, political factors, funding, and more.
