Abstract for an Invited Paper  
for the APR20 Meeting of  
the American Physical Society

**Decolonizing Thought: What Physics has to do with that?**

KATEMARI ROSA, Federal University of Bahia

In this presentation, we will discuss decolonizing thought, what it means, and how it relates to physics. I will argue that acknowledging African and Indigenous peoples' contributions to physics and astronomy is essential for a decolonized science and may contribute to the development of a new (and better) science.
