Abstract for an Invited Paper  
for the APR20 Meeting of  
the American Physical Society

**Current Challenges in International Scientific Cooperation**

REBECCA KEISER, National Science Foundation

The globalization of science and engineering research creates opportunities for the U.S. The presentation will discuss how NSF strives to keep the U.S. at the leading edge of discovery through active engagement in international collaboration. Dr. Keiser will discuss NSF criteria for international engagement and data on current international activity.
