Abstract for an Invited Paper
for the GEC20 Meeting of
the American Physical Society

Overview of Low Temperature Plasma Research Facility at Sandia National Laboratories.¹

EDWARD BARNAT, Sandia National Laboratories

An overview of the low temperature Plasma Research Facilities (PRF) at Sandia National Laboratories is presented. In this overview, the team members are introduced, a description of our capabilities is given and details on how to interface with our facility is discussed.

¹This work is supported by the U.S. Department of Energy, Office of Science, Office of Fusion Energy Sciences under contract number DE-NA0003525. This research used resources of the Low Temperature Plasma Research Facility at Sandia National Laboratories, which is a collaborative research facility supported by the U.S. Department of Energy, Office of Science, Office of Fusion Energy Sciences. SNL is managed and operated by NTESS under DOE NNSA contract DE-NA0003525
