

Abstract Submitted
for the HAW09 Meeting of
The American Physical Society

Extracting Nuclear Forces from Lattice QCD¹ THOMAS LUU,
Lawrence Livermore National Laboratory — I discuss the theoretical aspects of
extracting nuclear force parameters from LQCD calculations. I give the current sta-
tus of these calculations and describe the issues that must be addressed as we move
towards the exascale era.

¹This work was performed under the auspices of the U.S. Department of Energy by
Lawrence Livermore National Laboratory under Contract DE-AC52-07NA27344.
