Abstract for an Invited Paper  
for the MAR08 Meeting of  
the American Physical Society

**Lars Onsager Prize Talk: Quantum fluids: from liquid helium to cold atoms**

CHRISTOPHER PETHICK, Nordita and University of Copenhagen

The study of quantum liquids has led to ideas and concepts of broad applicability. I shall illustrate this by examples from the physics of liquid helium-3, heavy-fermion compounds, quark-gluon plasmas and cold atomic gases.
