

Abstract Submitted
for the MAR11 Meeting of
The American Physical Society

Mentoring undergraduates for experimental research in physics¹

JEREMY LEVY, U. Pittsburgh — Undergraduate research experiences are pivotal in shaping careers in physics. I will support this thesis—the implicit focus of this session—with anecdotes highlighting research performed by undergraduates in my group at the University of Pittsburgh, as well as my own recollections as an undergraduate researcher.

¹This work was supported by NSF DMR-0704022.
