Abstract for an Invited Paper
for the MAR11 Meeting of
the American Physical Society

Recent Advances in Robotics and Career Opportunities for Physicists¹

PAUL BOUCHIER, Dallas Personal Robotics Group

Some of the most significant advances in robotic systems over the last year are shown in this talk, which covers both autonomous and partly autonomous robots. A few robotic employers, both in Texas and elsewhere are profiled, with an emphasis on opportunities of interest to physicists.

¹The presenter is president of the Dallas Personal Robotics Group
