

Abstract Submitted  
for the MAR14 Meeting of  
The American Physical Society

**Physics Outreach Grant Experiences<sup>1</sup>** HEIDE DOSS, None — Descriptions of two different Physics Outreach grant projects will be presented. I will discuss my experiences trying to engage and teach the public in my locality some physics through birthday parties for the laser in 2010. I will also discuss my experiences trying to reach the general public through greeting cards and bookmarks with physics on the back in 2012-2013. These efforts spilled over to a larger audience, which led to a larger impact. I will describe what worked, what didn't, and the value of these efforts.

<sup>1</sup>I am pleased to acknowledge the support of my funder APS Outreach.
