Abstract for an Invited Paper
for the MAR17 Meeting of
the American Physical Society

Relevant and Rewarding - Strategic Research in Industrial Physics

ROBERT BROWN, American Institute of Physics

I'll discuss how we use strategic analysis and medium- to long-term product needs - to drive thinking backwards into the areas of novel physics we must develop - to be commercially competitive and successful in the future. Some recent products that many of us use will serve as illustrations of how this has worked out in practice.
