

Abstract Submitted  
for the NEF09 Meeting of  
The American Physical Society

**Unified Gravitation Theory** ARDE RAMTHUN<sup>1</sup> — Gravitation is caused when space filling repulsive gravitons with identical electric charge, traveling in opposing directions, interfere with each other destructively and cause a graviton pressure imbalance. This imbalance creates a net attractive force between all masses. The Unified Gravitation Theory is derived from my 2006 Plant Electromagnetic Energy Growth Theory which concluded that gravitons were repulsive to themselves, and my 2007 Snowflake Growth Theory which concluded that gravitons were reflective as well as repulsive to themselves. This presentation begins with the Plant and Snowflake Theories presentation. Also, introduces new theories on Lightning, Tornadoes, Gravitons, Universe Expansion, Speed of Light, and Speed of Gravity.
