Abstract for an Invited Paper  
for the PHYSTC20 Meeting of  
the American Physical Society

**Share-a-Thon: Get the Facts Out**

VINCE KUO, Colorado School of Mines

Do you want to get a new idea for preparing physics teachers that you could implement right away? Do you have something that worked really well for you and could be used elsewhere? Come to PhysTEC's third Share-a-Thon session that will focus on the Get the Facts Out (<https://getthefactsout.org/>) material and their uses! In this workshop, participants will share successful tips and ideas for preparing physics teachers that could be generalized to be used anywhere. Participants will learn about multiple things they could do to make a big impact in physics teacher preparation at their own institutions. Come to share ideas or get some new ones. If you're interested in presenting your idea, please contact Vince Kuo: [hkuo@mines.edu](mailto:hkuo@mines.edu).
