Abstract for an Invited Paper  
for the SES17 Meeting of  
the American Physical Society

### **Hadron Spectroscopy and JPAC Activities**

ANDREW JACKURA, Indiana University, Joint Physics Analysis Center (JPAC)

I will discuss aspects of hadron spectroscopy and the Joint Physics Analysis Center's (JPAC) role in the development of modern analysis tools. JPAC is a joint effort between theorists, experimentalists, and phenomenologists who work together to develop models and analysis tools for the next generation of high-precision, high-statistics data.
