

Abstract Submitted
for the SES21 Meeting of
The American Physical Society

”Chronos is not absolute” CHIRAG RAI, 12th grade Student — In my research paper, I have disproved sir Issac newtons Theory on time is absolute, He said Time only moves in one direction but I say Time moves in different directions it can move in 2 directions or more than 2 directions, In my paper, I have tried to explain this thing with an example for better understanding.
