

Abstract Submitted  
for the TSF14 Meeting of  
The American Physical Society

**Effect of Online Homework in Physics Learning** SUNIL KARNA,  
Texas A&M University, Kingsville — Online homework has been around for quite  
some time and many physics professors are familiar with its advantage and disad-  
vantage. But few presentations at the joint Physics conference in Texas have been  
given. This talk represents some initial results using online homework in the College  
Physics classes for the first time at Texas A&M University Kingsville.
