Establishing a Physics mentoring Program for a Philadelphia Middle School

J.T. MLACK, Drexel University, A. WILSON, Cambridge University/Drexel University, W. HARRIS, A. WHITE, Drexel University, S.S. MEHTA, V. RAMDASS, Drexel University — Our SPS chapter has established a regular physics mentoring program at Independence Charter Middle School located in Philadelphia, PA. Members visit the school on a bi-weekly basis and perform 1-2 hour, inquiry-based lecture demonstrations of physics phenomena that integrate with the science lessons of middle school students. At the end of the school year, a capstone activity in the form of a Rube Goldberg competition among the middle school students was held on the Drexel campus with Drexel faculty and graduate students participating as judges.

Drexel SPS would like to thank both SPS National and the Drexel Department of Physics for their support in funding our outreach programs.

J.T. Mlack
